

# Response Letter Template for IJIMAS Authors

Dear Author(s),

Thank you for submitting your manuscript to the International Journal of Interdisciplinary Medicine and Applied Sciences (IJIMAS). Please note that all revised manuscripts must be returned within **seven (7) days** from the date of receipt of this notification.

## Guidelines for Submitting Revised Manuscripts

### 1. **Highlighted Revisions:**

- Use **yellow highlighting** to indicate all changes made in the revised manuscript for ease of review.
- Sentences or sections removed from the manuscript must be clearly mentioned in the response letter.

### 2. **Comprehensive Response Letter:**

- Provide detailed responses to all reviewer comments following the structure outlined below.
- Address each point raised by reviewers and describe how it has been resolved in the revised manuscript.

### 3. **Formatting and Proofreading:**

- Ensure the manuscript has been thoroughly checked for grammar, language, and style errors.
- Manuscripts that fail to meet these criteria may experience delays in processing.

### 4. **Anonymity:**

- To maintain a **double-blind review process**, ensure that neither the manuscript nor the response letter reveals your identity directly or indirectly.

### 5. **Submission Platform:**

- Revised manuscripts and response letters must be submitted via the IJIMAS Journal Management System: [https:// ijimas.com/index.php/pub/about/submissions](https://ijimas.com/index.php/pub/about/submissions). Submissions through other means may face delays.

## Response Letter Format

### **Reviewer Comments and Author Responses:**

Each reviewer's comments should be addressed separately, following this structure:

*Reviewer A*

#### **Comment 1:**

*[Reviewer's comment]*

#### **Response 1:**

*[Author's detailed response, including changes made in the manuscript]*

#### **Comment 2:**

*[Reviewer's comment]*

**Response 2:**

*[Author's detailed response, including changes made in the manuscript]*

*Repeat this format for all reviewer comments.*

**Sample Response Letter**

*Reviewer Comments and Author Responses*

**Reviewer A / Comment 1**

*Comment:* The introduction section does not provide enough context about the significance of the research topic.

**Response 1:**

Thank you for your valuable feedback. We have expanded the introduction section to include more context about the importance of this research. Specifically, we have added the following sentences:

“[Newly added sentences highlighted in the manuscript].”

**Reviewer A / Comment 2**

*Comment:* The sample size is small and may affect the generalizability of the findings.

**Response 2:**

We appreciate your insightful comment. To address this, we have acknowledged this limitation in the revised manuscript. The following sentence has been added to the limitations section:

“The relatively small sample size of the study limits its generalizability. Future studies with larger populations are necessary to validate these findings.”

**Reviewer B / Comment 1**

*Comment:* The methodology lacks detailed descriptions of the statistical tests employed.

**Response 1:**

Thank you for bringing this to our attention. We have revised the methodology section to provide detailed descriptions of all statistical analyses conducted. The updated text now reads:

“[Newly added details highlighted in the manuscript].”

**Reviewer B / Comment 2**

*Comment:* The manuscript would benefit from a discussion of potential ethical considerations in the study.

**Response 2:**

We have included a new subsection in the discussion addressing ethical considerations. The following text has been added:

“[Newly added text highlighted in the manuscript].”

**Reviewer B / Comment 3**

*Comment:* Some references are outdated, and more recent studies should be included.

**Response 3:**

We have updated the reference list to include more recent studies published within the last five years. The newly added references are:

1. [Updated reference details].
2. [Updated reference details].

**Overall Revisions Summary:**

- All changes have been highlighted in yellow in the revised manuscript for ease of reference.
- Sentences removed have been detailed in this response letter for transparency.

We thank you for your constructive feedback and believe that the revisions have significantly improved the quality of our manuscript.

**Important Notes for Authors**

- Failure to submit the revised manuscript within the stipulated timeframe or failure to adequately address reviewer comments may result in delays or rejection of the manuscript.
- If you have any issues or require clarification, please contact us at: [editor@ijimas.com](mailto:editor@ijimas.com)

Thank you for your cooperation.

Sincerely,

**Editorial Team**
